

ClearSOL WetCling Film 125

■ glossy 3550 - 125 µm

The ClearSOL WetCling Film is a coated, transparent polyester film for solvent inks. The particularity of this media is the versatile coating system that combines the inkjet receptive layer and the composite for wet cling application. It can be used as normal clear film or when applied with soapy water as self-adhesive window-film. Even after months the film can be removed without leaving any residues.

Applications

- Indoor signs

Advantages

- Can be used as clear- or wet cling-film
- Self-adherent clear film without liner
- Easy to apply – easy to remove
- Excellent colour brilliance
- Very high transparency
- Also suitable for latex inks

Recommended use and storage

The converting and storage should take place in a climate from 35 to 65% to relative humidity at temperatures of 10 to 30°C. Keep the product in the original packaging (cardboard box and PE bag). It is always recommended that cotton gloves be used when handling InkJet coated materials to avoid fingerprints.

The values provided on this datasheet are only for orientation.

Before using our media please check its compatibility for your printer and intended application. Technical specifications are subject to change, therefore we do not take responsibility for any misprints resulting from technically modified inks and/ or printers. 04.06.2012
